

STELVIO

MOTO GUZZI®

THE NEVER-ENDING JOURNEY

The image shows two Moto Guzzi Stelvio motorcycles parked on a gravel road overlooking a mountain range. The motorcycle on the left is blue and yellow, while the one on the right is silver and blue. The background features rugged, rocky mountains with patches of snow under a clear blue sky. A large orange and black geometric shape is in the top right corner.

RUNNING ON A LEGEND

Just landed, but already set to explore the world. The new Stelvio has arrived, Moto Guzzi's modern adventure tourer - ready to take you anywhere with its unmistakable style and state-of-the-art technology.

The new Stelvio is a tireless traveller, combining comfort with a spirit for adventure, for thrills on any route you take. The bike's sleek, solid, contemporary look embodies the Moto Guzzi heritage: the Moto Guzzi brand on the fuel tank, the characteristic design of the DRL, the Compact Block engine with cardan shaft and its unmistakable roar are all one of a kind. The 19" front tubeless spoked wheel, combined with the long suspension travel, ensure great handling even on the toughest, uneven terrains. The mountain pass Stelvio is named after is the highest in Italy and one of the places which best embodies the myth of the motorbike. With its 48 hairpin bends, the road that goes over the pass is in every rider's imagination - standing for fun, discovery and achievement.

A close-up photograph of a Moto Guzzi Stelvio motorcycle. The image shows the front fairing in a bright yellow color with the word 'STELVIO' in black lettering. Below the fairing is the engine, which is a V-twin design with dark grey cylinder heads. The engine cover is black with the 'MOTO GUZZI' logo. The motorcycle is set against a background of grey and black geometric shapes.

MAXIMUM PERFORMANCE

The new Stelvio is powered by the innovative Moto Guzzi V-Twin “Compact Block” engine with cardan shaft, now conforming to Euro5+ emission standards. The Compact Block twin-cylinder engine delivers a smooth yet robust power, even at lower revs, for an optimal power/control balance that means you can focus on the road. The dark-coloured cylinder heads emphasizes the robust lines of the bike. Performance is on a par with the design, thanks to a 1,042 cc displacement, maximum power of 115 HP at 8,700 rpm and maximum torque of 105 Nm at 6,750 rpm. The deep, vibrating sound enhances the riding experience. Moto Guzzi Stelvio handling is down to a combination of outstanding choices: the chassis designed for pleasurable, easy riding, the adjustable, long suspension travel to suit your riding style depending on the route and load, the Brembo braking system with ABS cornering, for complete bike control, even in case of the unexpected.

MOTO GUZZI TECH EVOLUTION

Moto Guzzi's tech evolution enhances riding pleasure, and means you can control the bike in all situations, for a truly pleasurable experience and sense of freedom. The 6-axis inertial platform manages adjustable traction control and the ABS, with cornering function to prevent wheel locking, even on the tightest bends. 5 Riding Modes are available, including the specific off-road mode, and they have been developed to intervene on ABS, traction control, power delivery and engine braking. The full LED front headlamp has cornering lights to light up the inside of bends for a wider, safer field of vision. The new Stelvio features Cruise Control as standard, which becomes Following Cruise Control (FCC) on the model equipped with the PFF Rider Assistance Solution®. In the latter case, the front radar means that cruising speed adjusts to the speed of the vehicle in front.

A close-up, front-facing view of a dark grey Moto Guzzi motorcycle. The focus is on the front fairing, which features a prominent 4D radar sensor mounted centrally above the headlights. The headlights are dual-lens units with a modern, angular design. The 'MOTO GUZZI' logo is visible on the upper part of the fairing. The background is a solid black with a large, bright yellow diagonal shape on the left side.

PFF RIDER ASSISTANCE SOLUTION®: THE 4D RADAR FOR SAFETY AND RIDING PLEASURE

The Stelvio is the first Moto Guzzi to be equipped with the PFF Rider Assistance Solution®, available as factory option. Compared to traditional systems, the innovative platform based on Imaging Radar 4D ensures a very broad field of vision and reliable monitoring, regardless of the lighting and environmental conditions.

Active safety and riding pleasure have got even better thanks to four different features:

- **FORWARD COLLISION WARNING (FCW)**
- **FOLLOWING CRUISE CONTROL (FCC)**
- **BLIND SPOT INFORMATION SYSTEM (BLIS)**
- **LANE CHANGE ASSIST (LCA)**

Forward Collision Warning (FCW) acts to prevent the risk of potential collision with objects and vehicles, using the front radar. Following Cruise Control (FCC) increases Cruise Control functionalities, adapting engine torque to change the vehicle speed based on vehicles in front. With the rear radar, the Blind Spot Information System intercepts the vehicles in the blind spot of the rear view mirrors, within a 5-metre radius. Lane Change Assist (LCA) monitors the rear area by up to 30 metres, constantly identifying potential rear and side collisions if changing lanes. In the event of an emergency, the rider is alerted by acoustic and visual alarms on the instrumentation panel and rear view mirrors.

WIDE HORIZONS

Moto Guzzi Stelvio is the bike that will take you everywhere, from the city to the remotest locations, without limits, without compromises - just comfort and fun. For sole riders or couples, long journeys or medium distances, on the bends of a mountain pass or an offroad track, the Stelvio offers an authentic Moto Guzzi experience. Its chassis and technological package mean you can travel long distances in total safety and comfort, with a choice of 5 Riding Modes. The ergonomic design makes even the toughest routes comfortable, while the version with PFF Rider Assistance Solution® offers advanced support from Following Cruise Control (FCC). The evolved aerodynamics maximise air protection and the comfort of both the rider and passenger, while offering compact dimensions. The exclusive, electrically adjustable windshield adapts to the rider's height, deviating air flows and avoiding rear air vortices. The large 21-litre tank ensures a 400 km range.

ACCESSORIES

- **SIDE PANNIERS**
- **LONG DISTANCE TOP BOX**
- **32 L TOP BOX**
- **STREAMLINED WINDSCREEN**
- **HEATED COMFORT RIDER SEAT**
(low - standard - high)
- **HEATED COMFORT PASSENGER SEAT**

SERVICES

X-CARE+[®] MAINTENANCE

Thanks to X-Care+ Maintenance, the ordinary maintenance packs, you can ride your Moto Guzzi bike with peace of mind, in the world. Created to meet various needs, by choosing and purchasing one of the available packages, you will receive periodic maintenance as required in the use and maintenance manual.

Check the packages available for the various models with your preferred dealer.

X-CARE+[®] EXTENDED WARRANTY

The X-Care+ Extended Warranty completes the dedicated services on offer, protecting your peace of mind when it comes to your bike and allowing you to travel worry-free with a 1 or 2 year warranty which includes roadside assistance:

- Coverage of repair costs for faults due to manufacturing or assembly defects on parts
- Replacement of any damaged parts with original spare parts, labour included
- Roadside assistance including depannage and towing service
- Specialised, certified Piaggio Group Service assistance
- Maintenance of the retail value of your used vehicle in case you decide to sell
- Coverage throughout Europe

Ask your dealership or your authorised service centre for full details of the services and coverage available in your country.

DREAM RIDE[®]

With DreamRide, your dream of riding a Moto Guzzi is even easier to achieve. In fact, you can choose the most suitable financing solution for you, selecting it from a range of services conceived by the Piaggio Group to meet the numerous and changing financing needs.

The company reserves the right to make technical and aesthetic modifications at any time. Complete information regarding models and accessories is available at www.motoguzzi.com. Ride carefully, always wearing a helmet and suitable gear. Always comply with the Highway Code and respect the environment. Read the user and maintenance manuals thoroughly. Always request original, homologated spare parts in accordance with the laws in force. Refer to Official Moto Guzzi Dealers and Authorised Retailers for a secure purchase and guaranteed customer service.
